Independent Auditor's Report

Township Board
Monroe Charter Township
Monroe County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Monroe Charter Township, Monroe County, Michigan as of and for the year ended December 31, 2006, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Monroe Charter Township, Monroe County, Michigan management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Monroe Metropolitan Water Pollution Control System, a joint venture, which represent 100 percent of the business-type activities. Those financial statements were audited by another auditor, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Monroe Metropolitan Water Pollution Control System in the business-type activities columns, is based on the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Monroe Charter Township, Monroe County, Michigan as of December 31, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 3 through 10 and 35 through 37, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Township Board
Monroe Charter Township

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Monroe Charter Township, Monroe County, Michigan's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MONROE CHARTER TOWNSHIP

Management's Discussion and Analysis Year Ended December 31, 2006

This section of the Monroe Charter Township's annual financial report presents our discussion and analysis of the Township's financial performance during the fiscal year ended December 31, 2006. Please read it in conjunction with the Township's financial statements, which immediately follow this section. This summary should not be taken as a replacement for the audit which consists of the financial statements and other supplemental information that presents all the Township's revenues and expenditures by program for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Project Funds.

The Governmental Accounting Standards Board (GASB) adopted this report in *Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued June, 2000. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Monroe Charter Township financially as a whole. The ***Government-Wide Financial Statements***, which include the statement of Net Assets and the Statement of Activities, provide information about the activities of the Township as a whole and presents both a short-term and a long-term view of those finances. The ***Fund Financial Statements*** provide the next level of detail. For governmental activities, these statements explain how services were financed in the short-term as well as what remains for future spending. The ***Fund Financial Statements*** report the Township's operations in more detail than the ***Government-Wide Financial Statements*** by providing information about the Township's most significant funds – the General Fund, the Central Sewer Special Revenue Fund, the Special Assessment Water District #70 Debt Fund, the Fire and Safety Capital Project Fund, and the Roads Capital Project Fund. All other funds are presented in one column as nonmajor funds. The remaining statements, the Statement of Fiduciary Net Assets, presents financial information about activities for which the Township acts solely as an agent for the benefit of the public. The following summary illustrates how the various parts of this annual report are arranged:

Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities (pages 11-13), which appear first in the Township's financial statements, report information on the Township as a whole and its activities. These statements include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Township's net assets and changes in them. The change in net assets provides the reader a tool to assist in determining whether the Township's financial health is improving or deteriorating. The relationship between revenues and expenses indicates the Township's operating results. However, the Township's goal is to provide services to our residents, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the services provided and the safety of the public to assess the overall health of the Township.

The government-wide financial statements of the Township are divided into two categories:

- Governmental activities which encompasses all of the Township's services, including general government services, public safety, public works, culture and recreation. Property taxes, state grants, charges for services, and capital contributions finance most of these activities.
- Business-type activities which consists of the joint venture in the Monroe Metropolitan Water Pollution Control System.

Fund Financial Statements

The Township's Fund Financial Statements (pages 14-20) provide detailed information about the most significant or "major" funds – not the Township as a whole. Some funds are required to be established by State law and by bond covenants. However, the Township establishes other funds to control and manage money for particular purposes or to show that it is properly using revenues. The Township's two types of funds, governmental and fiduciary, use different accounting approaches as described below:

Governmental funds – All of the Township's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year-end that are available for spending. They are reported using the modified accrual accounting method, which measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the Township and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation format in the financial section on pages 16 and 19.

Fiduciary funds – An Agency Fund is used to account for assets held by the Township as an agent for the collection and disbursement of payroll, property taxes, and escrow accounts.

As depicted in Table 1, the Township's net assets were \$16.95 million at December 31, 2006. Of this amount, a positive \$2.4 million was unrestricted. This amount represents the *accumulated* results of all past years' operations. The unrestricted net asset balance is used for working capital and cash flow needs as well as to provide for future uncertainties. It means that if we had to pay off all our bills *today*, including all of our noncapital liabilities we could with our current resources. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the Township as a whole are reported in the Statement of Activities. Table 2 shows the changes in the net assets for the calendar year ended December 31, 2006 and 2005.

Management's Discussion and Analysis *Year Ended December 31, 2006*

Government-Wide Financial Analysis - Concluded

As indicated in Table 2, the cost of *all governmental* activities this year was \$3.1 million. Of this amount, \$0.4 million was subsidized with revenue generated from charges for services, grants and other contributions with the remaining costs financed with general revenues. The cost of *business-type* activities this year was \$1.4 million which was subsidized with revenue generated from charges for services.

The Township's governmental activities experienced an increase in net assets of \$268,011. Compared to 2005, revenues decreased by \$438,018 and expenses increased by \$274,132. There was a decrease in revenues for charges for services and capital contributions; however, there was an increase in property taxes, state grants, and interest. Expenses for public works increased by \$252,243.

Fund Financial Analysis

As noted earlier, the Township uses funds to help control and manage money for particular purposes. Looking at funds helps the reader consider whether Monroe Charter Township is being held accountable for the resources taxpayers and others provide to it and may give more insight into the Township's overall financial health.

As the Township completed this year, the governmental funds reported a combined fund balance of \$7,441,978, which is a decrease of \$46,383 from last year. The changes by fund types are as follows:

| | <u>General Fund</u> | <u>Special Revenue Funds</u> | <u>Debt Retirement Funds</u> | <u>Capital Projects Funds</u> | <u>Total</u> |
|--|-------------------------|--------------------------------------|--------------------------------------|---------------------------------------|--------------------|
| Fund balances – Beginning of year | \$2,408,510 | \$3,274,617 | \$236,939 | \$1,568,295 | \$7,488,361 |
| Increase (decrease) | <u>(670,865)</u> | <u>184,708</u> | <u>25,605</u> | <u>414,169</u> | <u>(46,383)</u> |
| Fund balances – End of year | <u>\$1,737,645</u> | <u>\$3,459,325</u> | <u>\$262,544</u> | <u>\$1,982,464</u> | <u>\$7,441,978</u> |

The decrease of the fund balance in the Township's General Fund was due primarily to the transfers out to other funds. A transfer of \$902,728 was transferred to the Roads Capital Projects Fund to cover the expenses related to the West Seventh Street extension, and a transfer of \$225,310 was transferred to the Parks and Recreation Capital Projects Fund for expenses related to the development and construction of the new Township park.

General Fund Budgetary Highlights

The Uniform Budget Act of the State of Michigan requires the Charter Township Board to adopt the original budget prior to January 1, the start of the fiscal year. Over the course of the year, the Township revises its budget as it attempts to deal with the unexpected changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule illustrating the Township's original and final budget amounts compared with amounts actually paid and received is provided in the required supplemental information of these statements. Revisions to the General Fund budget were as follows:

Revenues - The original budget of \$2,286,439 was amended to \$2,527,689. The amendments were for increases to budget line items for electric/plumbing/mechanical permits, grant revenue, interest, other revenue, and transfers in. There were decreases to Metro Act revenue and zoning board of appeals fees.

Expenditures – The original budget of \$2,415,934 was adjusted to \$3,420,458. The key reason was an increase for transfers to other funds of \$1,032,077. The transfers were for capital projects: road projects and development of the new Township park.

Capital Asset and Debt Administration

Capital Assets

At December 31, 2006, the Township had \$5.6 million invested in a broad range of capital assets, including land, construction in progress, buildings and building improvements, machinery and equipment, and vehicles. This amount represents a net increase (including additions and disposals) of \$312,227 from last year. This year's additions of \$320,205 included park and water line construction, fire truck, voting machines, trailer, and office equipment. There was a disposal of office equipment of \$7,978. Depreciation for this year totaled \$195,311. Details regarding capital assets are included in Note 6 to the financial statements.

Debt Administration

On December 31, 2006, the Township's debt for special assessment bonds and general obligation bonds was \$870,000. The special assessment bonds are paid with special assessments, and the general obligation bonds are paid by the General Fund and some Debt Funds. The note payable for the new fire station, that was completed in 2002, was \$744,962 at year end. The fire station note payable will be paid through tax collections from the Fire and Safety Capital Project Fund. Details regarding long-term debt are included in Note 7 to the financial statements.

Development of the 2007 Fiscal Year Budget

The Monroe Charter Township Board considers many factors when setting the 2007 fiscal year budget. The budget is based primarily on the previous years spending patterns as well as goals set forth by the Board. Foresight is given to the uncertainty of State Shared Revenues which accounts for over 40% of the Township's total revenue. Monroe Charter Township continues to monitor and control the rising cost of governmental services, as the Township plans for the future and assesses the needs and desires of the residents. In 2007, the Township will continue to reassess health care costs and programs for employees. The 2007 budget also includes two major road projects to be completed this year. The Township will contribute \$200,000 to the widening and paving of East Dunbar Road between LaPlaisance Road and South Dixie Highway. The second road project will be the extension of Seventh Street between Patterson Drive to Herr Road. In addition to road projects, the Township will adopt a Five-Year Parks and Recreation Master Plan. This plan includes the construction of a new park facility adjacent to the Township Hall. The park will include 12 new ball diamonds, two play areas, tennis courts, volleyball courts, basketball courts, and a hiking/nature trail. The park plan will be completed in four phases with phase 1 and 2 scheduled to be completed in 2007.

Development of the 2007 Fiscal Year Budget - Concluded

Approximately \$376,700 has been generated through in-kind services from Stoneco and a \$32,000 grant from the Monroe County Community Foundation Access to Recreation Grant. The Township has also applied for additional grant monies from the Michigan Department of Natural Resources and will seek monies from private corporations. The Township will continue to assess the needs of the Volunteer Fire Department and the need for an auxiliary northwest fire station on Herr Road. In 2007, the Township will also review and prepare a new Zoning Ordinance and update its General Code of Ordinances.

MONROE CHARTER TOWNSHIP

*Notes to Financial Statements
Year Ended December 31, 2006*

Note 1 Description of the Township and Reporting Entity

The Township operates under a locally elected seven member Board form of government and provides the following services: public safety (fire), highways and streets, culture and recreation, public improvements, planning and zoning, and general administrative services.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements are not misleading. The primary government of the Township consists of all funds, departments, boards, and agencies that are not legally separate from the Township.

Component units are legally separate organizations for which the Township is financially accountable. Component units may also include organizations that are fiscally dependent on the Township in that the Township approves their budget, the issuance of their debt, or the levying of taxes. The Township has no component units.

The following entity is a joint venture which is not included in the governmental fund financial statements but is included as a business-type activity in the government-wide financial statements.

MONROE METROPOLITAN WATER POLLUTION CONTROL SYSTEM

This is a joint venture between Monroe Charter Township, Frenchtown Charter Township, City of Monroe, and the County of Monroe to provide a wastewater treatment system to these municipalities located within the County of Monroe.

Note 2 Summary of Significant Accounting Policies

The financial statements of Monroe Charter Township have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Council (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of the Township's accounting policies.

Basis of Presentation

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues are reported separately from business-type activities which rely, to a significant extent on fees and charges for support. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Amounts reported as program revenue include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. General revenue includes taxes, intergovernmental payments, sales of property, and other items not properly included among program revenues.

Separate financial statements are provided for governmental funds, and agency funds, even though the latter are excluded from the government-wide financial statements. Individual major governmental funds are reported as separate columns in the fund financial statements.

Summary of Significant Accounting Policies

Basis of Presentation (Continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Governmental fund expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

On the governmental funds statements, property taxes, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Township.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Agency fund statements also are reported using the economic resources measurement focus and the cash basis of accounting.

The Township reports the following major governmental funds:

The General Fund is the Township's primary operating fund. The General Fund accounts for all financial resources of the Township, except those required to be accounted for in another fund.

The Special Revenue Fund - Central Sewer accounts for the collection of sanitary sewer district special assessments and their disposition.

The Debt Fund - Special Assessment Water District #70 accounts for the payment of special assessment bond principal and interest from special assessment levies for Hull Road.

The Capital Project Fund - Fire and Safety accounts for moneys set aside to be used for specific capital projects.

The Capital Project Fund - Roads accounts for moneys set aside to be used for specific capital projects.

The Township reports the following nonmajor governmental funds:

The Special Revenue Fund - Emergency Revolving, Special Revenue Fund - Street Light, Special Revenue Fund - Water District #63, Special Revenue Fund - Water District #68, Special Revenue Fund - Water District #69, Debt Service Fund - Water District #47, Debt Service Fund - Special Assessment Water District #64, Debt Service Fund - Special Assessment Water District #65, Debt Service Fund - Special Assessment Water District #66, Debt Service Fund - Special Assessment Water District #67, Debt Service Fund - General Obligation Water District #64, Debt Service Fund - General Obligation Water District #65, Debt Service Fund - General Obligation Water District #66, Debt Service Fund - General Obligation Water District #67, Capital Project Fund - Park and Recreation, and Capital Project Fund - Special Assessment Water District #70.

C. Assets, Liabilities, and Net Assets or Equity

Deposits and Investments - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

Property Tax Receivable - Property taxes are assessed as of December 31 and the related property taxes become a lien on July 1 and December 1 of the following year. Summer taxes are considered delinquent July 31, and winter taxes are considered delinquent February 14 of the following year.

Prepaid Assets - Payments made to vendors for services that will benefit periods beyond December 31, 2006, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Capital Assets - General capital assets are those assets related to the general activities and expenditures reported in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Township maintains a capitalization threshold of one thousand dollars and an estimated useful life in excess of one year. The Township has elected not to retroactively report infrastructure assets. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

C. Assets, Liabilities, and Net Assets or Equity (Continued)

All reported capital assets, other than land, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u> | <u>Estimated Lives</u> |
|--------------------------------------|------------------------|
| Land Improvement | 20 years |
| Buildings and Buildings Improvements | 10-50 years |
| Machinery and Equipment | 3-10 years |
| Vehicles | 5-25 years |

Interfund Balances - On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds." These amounts are eliminated in the governmental activities column of the statement of net assets.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Payments of long-term loans that are paid from governmental funds are recognized as an expenditure on the governmental fund financial statements when due.

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

Interfund Transactions - Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

Fund Balance Reserves and Designations - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Compensated Absences - Township employees are granted vacation, personal, and sick days under formulas and conditions in the personnel policy manual. All earned vacation must be taken within the calendar year. Vacation time not used during the year will not accrue and will be lost. Personal days must be used and no accrual is allowed. Full-time employees earn five days of sick leave per calendar year. Unused sick time is paid out at the end of each calendar year. Part-time regular employees, after ninety days of continuous employment, shall receive prorated sick days according to the number of hours worked. As of December 31, 2003, any sick time became "banked sick days." Banked sick time can only be used after current sick time has been exhausted. Employees will receive a banked sick day compensation payment at one-half rate for the total accumulated sick days with the regular hourly rate in effect at the date of resignation or dismissal. Banked sick days are accrued in the government-wide financial statements. In the fund financial statements, these accounts are reported when paid.

D. Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

E. Extraordinary and Special Items - Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Township and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2006.

F. Budgetary Policies - The budgetary process is prescribed by provisions of the State of Michigan Budget Act and entails the preparation of budgetary documents within an established timetable. The General Fund and all Special Revenue Funds are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Township Board at the function level. Any budgetary modifications may only be made by resolution of the Township Board.

The Township follows these procedures in establishing the budgets for the individual funds as reflected in the financial statements.

1. Prior to October 31, the fiscal officer submits to the Township Board a proposed operating budget for the fiscal year commencing on January 1.
2. A public hearing is conducted during October to obtain taxpayer comments.
3. Prior to October 31, the budget is legally enacted through passage of a resolution.
4. During the year the budget is monitored, and amendments to the budget are made when deemed necessary.
5. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
6. Lapsing of Appropriations - At the close of each year all unspent appropriations revert to the respective funds from which they were appropriated and become subject to future appropriations.

MONROE CHARTER TOWNSHIP

Notes to Financial Statements Year Ended December 31, 2006

Note 3 Stewardship, Accountability and Compliance

The Township shall not incur expenditures in excess of the amount appropriated. Annual budgets are adopted on a basis that is consistent with generally accepted accounting principles and State Law for the General and Special Revenue Funds.

In the required supplemental information, the Township's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis, which is the adopted legal level of control.

Note 4 Deposits

Statutes authorize the Township to invest in obligations of the U.S. Treasury, agencies, and instrumentalities; commercial paper within the three highest rate classifications by at least two rating services; bankers' acceptances of U.S. banks, U.S. or agency repurchase agreements; savings accounts and certificates of deposit with banks and savings and loan associations, or credit unions which are insured with the applicable federal agency. Public funds of the Township may not be deposited in financial institutions located in states other than Michigan.

Public Act 367 of 1982 (known as the Surplus Funds Investment Pool Act) enables municipalities to invest surplus operating funds in investment pools managed by qualified financial institutions. At December 31, 2006, the Township had invested in such a fund with a local bank. The Township is able to retrieve these funds without restriction and, accordingly, this amount is considered to be available cash. The local bank invests these funds in a variety of instruments including bonds and direct obligations of the United States, certificates of deposit, commercial paper rated within the three highest classifications by not less than two standard rating services, United States government or federal agency obligation repurchase agreements and bankers acceptances of the United States banks.

The Township believes that, due to the dollar amounts of cash deposits and the limits of FDIC insurance, and since State of Michigan legislation does not require that all deposits be collateralized, it is impractical to insure all bank deposits. As a result, the Township evaluates each financial institution with which it deposits Township funds and assesses the level of risk at each institution; only those institutions with an acceptable estimated risk level are used as depositories.

The Board has adopted an investment policy authorizing certain types of investments and authorized three depositories: Monroe Bank & Trust, Fifth Third Bank, and LaSalle Bank.

Interest rate risk. The Township's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. The Township will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities listed in the Township's investment policy.

Concentration of credit risk. The Township does not place any limits on the amount the Township may deposit or invest in any one issuer.

Note 4 Deposits (Concluded)

Custodial credit risk. Custodial credit risk for deposits is the risk that in the event of a bank failure, the Township's deposits may not be returned or the Township will not be able to recover the collateral securities in the possession of an outside party. The Township has \$9,625,400 invested in certificates of deposit, checking accounts, and money markets. The Township's deposits are insured by the FDIC in the amount of \$266,512, with uninsured deposits of \$9,358,888. The Township's deposits are at institutions with an established record of fiscal health and service. The Township Board approves and designates a list of authorized depository institutions. The Township's investment policy does not address deposit risk.

Foreign currency risk. The Township is not authorized to invest in investments which have this type of risk.

Note 5 Interfund Transfers

Interfund transfers for the year ended December 31, 2006, consisted of the following:

| | Transfers Out | | | Total |
|------------------------|--------------------|--------------------|---------------------------------|--------------------|
| | General Fund | Water District #62 | Water District #70 Construction | |

The transfer to the General Fund was to close the Water District #63 Special Revenue Fund. The transfer from the General Fund to the Street Light Special Revenue Fund was to assist in the payment of the street light utility bills and to eliminate the fund's deficit balance. Transfers from the General Fund to General Obligation Water District #64, General Obligation Water District #65, General Obligation Water District #66, and General Obligation Water District #67 Debt Service Funds was for debt service retirement. The transfer to the Roads Capital Project Fund was for additional capital projects. The transfer from the General Fund to the Park and Recreation Capital Project Fund was for future capital project expenditures.

Note 7 Long-Term Debt (Concluded)

Loan Payable

2002 Fire Hall Note - on January 16, 2002, the Township entered into a purchase agreement with Monroe Bank & Trust. The purchase agreement is to provide/build a fire hall for a total aggregate purchase price of \$1,868,500; the Township had only drawn down \$1,573,675. The Township is financing these costs through a tax millage.

Note 8 Property Taxes

The Township bills and collects its own property taxes and also taxes for the County of Monroe, Monroe Public Schools, Ida Public Schools, Monroe County Community College, and the Monroe County Intermediate School District. Collections are accounted for in the Tax Collection Agency Fund. For 2006, the Township levied, on December 1, 2005, 0.6387 mills for roads, 1.0000 mill for fire, and 2.1000 mills for general operating due and payable on February 14, 2006. The valuation for real and personal property totaled \$392,992,314 which was based on December 31, 2005 assessments.

The taxes receivable of \$7,262,225 and the \$8,901,273 liability to the taxing authorities reflected in the Tax Collection Agency Fund relate to the December 2006 tax bills. The Township's share of these taxes will be reflected as revenues in 2007.

Note 9 Employee's Pension Plan

The Township is a member of the Michigan Townships Association pension plan through Manufacturers Life Insurance Company, Toronto, Canada. All full time and permanent employees and all elected officials are eligible for participation upon employment with 100% vesting after two years of continuous employment. The Township, which contributes 10% of eligible wages, contributed \$62,041 in 2006. Employees may make voluntary contributions to the plan. The Township has no liability beyond its own contribution. The covered payroll for the year was \$620,410 out of a total payroll of \$829,107.

Note 10 Michigan Unemployment

On May 16, 1974, Governor Milliken signed into law enrolled Senate Bill 741, which is known as Act No. 104 of the Public Acts of 1974. The provisions of this Act subject political subdivisions to the Michigan Employment Security Act effective January 1, 1975. The Township has elected to make reimbursement payments rather than to pay contributions as a contributing employer. As of December 31, 2006, no reserve has been established for this contingent liability.

Notes to Financial Statements *Year Ended December 31, 2006*

Note 11 Accumulated Compensated Absences

As of December 31, 2003, any sick time became "banked sick days." Banked sick time can only be used after current sick time has been exhausted. Employees will receive a banked sick day compensation payment at one-half rate for the total accumulated sick days at the regular hourly rate in effect at the date of resignation or dismissal. Banked sick days are accrued in the government-wide financial statements. The liability as of December 31, 2006, for banked sick days totaled approximately \$18,349. In the fund financial statements, these accounts are reported when paid.

Note 12 Joint Venture

The Monroe Charter Township is a member of the Monroe Metropolitan Water Pollution Control System. Monroe Charter Township, Frenchtown Township, and the City of Monroe each appoint two members and the County of Monroe appoints one member to the joint venture's seven member governing board, which approves the annual budget. The following is the financial information of the joint venture, obtained from their financial report, as of June 30, 2006:

| | |
|---------------------------|--------------|
| Total assets | \$20,370,076 |
| Total liabilities | 338,868 |
| Total net assets | 20,031,208 |
| Total revenues | 5,594,710 |
| Total operating expenses | 5,737,775 |
| Total transfers out | 97,979 |
| Decrease in system equity | (241,044) |

The operations of the joint venture are performed by the employees of the City of Monroe. Therefore, the City is liable for all related employee commitments and is then reimbursed by the joint venture.

Monroe Charter Township's investment in the joint venture is based on the capacity of the treatment facilities. Monroe Charter Township's capacity of the treatment facilities is 23.798%.

The change in the joint venture is shown in the Statement of Activities under business-type activities.

Note 13 Contract to Develop, Lease, and Return Property

P & W, a partnership formed by David Phipps and Gary Whitener, has entered into an agreement with Monroe Charter Township to lease township property to develop and build an eighteen hole golf course. Beginning on the December 1st after the first full season of an eighteen-hole golf play, P & W will pay Monroe Township an annual fee plus a percentage of the gross receipts as follows:

| | <u>Annual Fee</u> | <u>Percentage of Gross Receipts</u> |
|--|-------------------|---|
| Years 1 & 2 | \$ 5,000 | 0% |
| Years 3, 4, 5, & 6 | 5,000 | 1% |
| Years 7, 8, 9, & 10 | 10,000 | 2% |
| Years 11, 12, 13, 14, & 15 | 15,000 | 3% |
| Years 16, 17, 18, 19, & 20 | 20,000 | 4% |
| Years 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, & 36 | 30,000 | 5% |

During 2006, Monroe Charter Township received \$22,558 for the eighth year's annual fee and percentage of gross receipts.

At the time the lease expires, the Township will pay P & W the sum of one dollar for land improvement and buildings but not to include any personal property equipment.

Note 14 Risk Management

The Township is exposed to various risks of loss related to property loss, torts, errors, omissions and employee injuries (workman's compensation). The Township has purchased commercial insurance for property loss, torts, errors, omissions and employee injuries.

Board of Trustees
Monroe Charter Township
4925 East Dunbar Road
Monroe County, Michigan 48161

Our audit of the financial statements of Monroe Charter Township for the year ended December 31, 2006, was conducted in accordance with auditing standards generally accepted in the United States of America. These standards require, in addition to obtaining competent evidential matter through inspection, observation, inquiry, and confirmation, that we determine that existing internal controls, accounting procedures and accounting records are adequate to allow us to express an opinion on the financial statements of the Township.

As a result of our audit, we do not have any comments or recommendations that should be brought to the attention of the Board.

We appreciate the cooperation and courtesy extended to us by all officials and employees of the Township and are encouraged by their efforts to maintain and improve strong and efficient accounting controls and procedures.

Very truly yours,

A handwritten signature in cursive script that reads 'Cooley Hehl Wohlgamuth & Carlton'.
